

Peel
Renewable
Energy

A Zenith Energy Company

TURN YOUR ROOF INTO AN INCOME GENERATING ASSET

If your building is designed to be solar ready, PEEL may be able to **lease suitable rooftop space** to install and operate a rooftop solar system, providing you with an **additional revenue stream** while supporting the Peel Business Park energy network.

NEW at Peel Business Park!

WHY CONSIDER A ROOFTOP LEASE?

Additional Income

Suitable properties may be eligible to receive lease payments.

No Upfront Solar Installation Costs

PEEL funds, installs and owns the solar system.

No Solar Maintenance

PEEL operates and maintains the PEEL equipment for the life of the lease.

Power the Park

Your roof helps power Peel Business Park with clean, local energy.

IS YOUR BUILDING SUITABLE?

-  A large commercial or industrial roof (>400sqm).
-  A building design that incorporates solar ready provisions.
-  You consume less power than your roof could supply.

NEXT STEPS

- 1** Updated Design Requirements from Development WA will be supplied in the near future.
- 2** During the Connection Application process, we will assess your rooftop and provide you with a lease offer if it is suitable.

Disclaimer: Rooftop lease opportunities are subject to technical, commercial and structural assessment, network requirements and the execution of a lease agreement. PEEL is under no obligation to make a lease offer. PEEL will assess each property, the subject of a Connection Application for suitability, and any lease offer will be made at PEEL's sole discretion. Terms and conditions apply.

READY TO EXPLORE THE OPPORTUNITY?

Speak with the PEEL team to learn whether your future building could be suitable for a rooftop solar lease.
