<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

Consent

This information should include without limitation: electricity usage and load data; meter types and models; kWh, kVa and other interval and accumulated data for meters identified above.

Data access will include up to two years of historical energy data. This length of time is dependant on how long I have been associated with the identified metering points.

I give consent for access to my energy data as requested.

Signature: _____
